2010 Rate Card

Rate Card Number 12
Effective January 1, 2010

Editorial Description

Archives of Facial Plastic Surgery is a peer-reviewed original science journal—rich in content, highly graphic in format, and international in perspective. In addition to concise reports of clinical studies, laboratory research, and socioeconomic studies, *Archives* contains in-depth reviews on a range of subjects.

Archives is a journal for all the specialties of medicine that perform cosmetic and reconstructive surgery of the face and has a multidisciplinary editorial board. It is the official publication for the American Academy of Facial Plastic and Reconstructive Surgery, Inc., the International Federation of Facial Plastic Surgery Societies, and the European Academy of Facial Plastic Surgery.

Special sections ensure high reader involvement: “Surgical Techniques” presents innovative and practical techniques in cosmetic and reconstructive surgery of the face; “Beauty” is a forum for visual or literary arts of interest to physicians; “Ethics and Public Policy” is a section for essays on issues relevant to physicians and patients.

The *Archives* Specialty Network allows advertisers to target specialty audiences with more flexibility and value than ever before. For details, refer to information on page 7.

Publication Statistics

Established: 1999

Editorial source: peer-reviewed, original manuscripts

Manuscripts submitted, accepted: 164, 45%

Time from acceptance to publication: average: 4.3 months

Average issue total folio: 78 pages

Average ad/edit ratio: 10:90

Ad placement policy: interspersed between articles;
fair ad rotation front/back from issue to issue

Advertising Policy

Advertising is subject to approval by the American Medical Association (AMA), which reserves the right to decline advertising deemed not in keeping with the publication's standards. Advertising orders are accepted subject to the terms and provisions of the current rate card, and conditions set forth in *Principles Governing Advertising in Publications of the American Medical Association*, which by this reference are made part of this rate card.

No conditions, printed or otherwise, appearing on insertion orders, billing instructions, or copy instructions conflicting with AMA's stated policies shall be binding on publisher. Positioning of advertising is at discretion of the publisher, except when a preferred position has been confirmed in writing by Advertising Services. Conditions other than rates are subject to change by publisher without notice. All new advertisements should be faxed to Ryan Patella at (312) 464-5840 for approval.

Short-Rates and Rebates

Advertisers will be short-rated if they do not attain the frequency upon which their advertising has been billed during the 12-month contract period. Advertisers will be rebated if they earn a more favorable frequency rate.

Issue and Closing Dates

Published bimonthly. Mailed the first week of the month.

Issue	Closing Date	Materials Due
Jan/Feb	11/30/09	12/07/09
March/April	01/29/10	02/05/10
May/June	04/01/10	04/08/10
July/August	06/01/10	06/08/10
Sept/Oct	08/02/10	08/09/10
Nov/Dec	10/01/10	10/08/10

All space reservations and cancellations must be confirmed in writing prior to closing date. Mail or fax to:

2-color process	566
3- or 4-color process	1212
5-color process	1887
metallic inks	1070
4-color process + metallic	2282

No charge for bleed; 4-color rate applies to units with 2 process, standard, and/or matched colors. Call Advertising Services for availability of metallic inks, and 3- or 5-color process.

Premium Positions

Special positions are available on a limited basis for ad units of one page or more. Position cancellations must be made at least 30 days prior to closing date to avoid the premium charge.

Position	Additional
2nd cover (4-color mandatory)	613
4th cover (4-color mandatory)	613
Opposite table of contents	234
Page facing first reading	234

Insert Rates

Full-run insert rates are the B&W page rate times the number of insert pages. Inserts to less than full-run circulation are not accepted.

PRODUCTION INFORMATION

Digital Files

Rasterized data formats PDF X-1a preferred.

For processing of formats not listed, contact Karen Allbright at (312) 464-2401 Phone; (312) 464-5840 Fax.

Acceptable Ad Formats

A color proof for color match on press should accompany all ad file submissions.

Ads featuring spot colors must be furnished with a color-separated proof or a marked-up composite proof indicating color breaks for spot color elements. In addition, the file that contains the known spot color that is intended to print, should contain the letters "pms" at the end of the filename before the ".pdf". Example: adnamepms.pdf

Ads should be built to the final trim size of the target publication with .125" bleed and .25" trim margin for non-bleed elements.

PDF Requirements

All furnished PDF files should comply with PDF X-1a specifications as detailed at <http://www.pdf-x.com>. The PDF version should be either 1.3 or 1.4. All fonts and high-resolution images should be embedded. Type set on the Mac OS should not be menu-styled. Embedded images should be in EPS or TIFF format in a CMYK mode. All art, type, and tint elements should be set to knockout or overprint as desired. **Crop and registration marks should be included with an offset of 12 points.** Page geometry must be set with the art box dimension 1" larger than the final trim size. Never use the "Save page as PDF" feature of the page layout program. Always print PostScript to disk and refine to PDF using Distiller. Do not submit CT/LW, TIFF-IT, or DCS files embedded in a PDF "wrapper".

Raster File Requirements

File dimensions must be 1" larger than final trim size with page trim centered within .5" border. All bleed and trim marks are contained in the same .5" border area. Trim coordinates must be .5" from top and .5" from left. DCS file resolution must be 2400 DPI. For CT/LW and TIFF-IT files, LineWork layer resolution must be 2400 DPI (94.48819 DPM) and ConTone layer resolution must be 300 DPI (11.81102 DPM). All components of multipart files must be furnished in the same subdirectory. All file components, ConTone, LineWork, and Assign files must be furnished. When copying files to

Production Information (cont)

CD, enable the ISO 9660 format and Macintosh filenames settings, if available. If the filenames on the final CD appear in uppercase letters and truncated, the pages on the CD will not be usable.

Application File Requirements

High-resolution copies of all component files and resources (linked EPS and TIFF images) must be included with the final application file. All fonts must be supplied with the job. Be sure to supply fonts used by EPS graphic images to ensure type quality. Do not menu-style your fonts. Define all colors as CMYK builds unless the color will print as a spot color on press. Do not save TIFF or EPS files with embedded color management profiles. RGB, LAB, and ICC based colors are not allowed. Hairline rules should not be used. Ensure that all image, art, tint and type elements are set to knockout or overprint as desired.

Labeling Requirements

Journal name and issue date, advertiser name, agency name, agency contact and phone number, directory printout of disk contents, and return address for materials.

At advertiser's request, disks can be returned to the agency after the ad has been digitally archived by the printer. Please notify Production Services if so desired.

Digital File (ROB Ads) Shipping Instructions

Closing dates: see page 2. Ship disk, color proofs, and PMS patches in an envelope marked with journal issue date to:

Archives of Facial Plastic Surgery
Attn: Annette Geringer
RR Donnelley
1600 North Main Street
Pontiac, IL 61764

Production Services Contact

Karen Allbright, 11th Floor

Ad Page Dimensions

Ad Unit	Standard Page		Bleed Page	
	Width	Depth	Width	Depth
Full page	7"	10"	8-1/4"	11"
2/3 vert.	4-5/8	10	5-1/8	11
1/2 vert.	3-7/16	10	4-1/8	11
1/2 horiz.	7	4-7/8	8-1/4	5-5/8
1/3 vert.	2-1/4	10	2-7/8	11
1/3 horiz.	4-5/8	4-7/8		
1/4 vert.	3-7/16	4-7/8		
1/6 vert.	2-1/4	4-7/8		

Trim: 8" x 10-3/4". **Safety:** keep live matter 1/4" from trim.

If a spread does not align, it can be single pages.

If a spread ad is in alignment then it needs to be sent as a spread.

For additional guidance on file preparation, visit our printer's Web site: <http://prepress.rrd.com>

Insert Specifications

Publisher adheres to guidelines, available on request, of the Association of Medical Publications, Inc. (AMP). Send samples of insert stock to Production Services.

2-page: 8-1/4" x 11", trims to 8" x 10-3/4".

4-page: 16-1/2" x 11", folds to 8-1/4" x 11".

6-page: (adhere to the above specs) the 2-page piece should be glued (interleaved) inside the 4-page piece.

Jog: to head.

Trimming: 1/8" off all 4 sides.

Safety: keep live matter 1/4" from trim.

Stock: consult AMP guidelines. Acceptable basis weights are computed using 500 sheets, 25" x 38", 80# maximum.

High-bulk stock: subject to publisher's approval.

BRCs: subject to publisher's approval.

Required insert quantity: 4,000 per issue

Insert Shipping Instructions

Closing dates: see page 2. Inserts must be clearly marked on shipping label as to journal, issue date(s), and quantity per issue. Attach a sample of insert to each carton. Ship to:

Archives of Facial Plastic Surgery

Attn: Tom Puckett

RR Donnelley

121 Matthews Drive

Senatobia, MS 38668

Inserts should be shipped in telescopic cartons (T-boxes). Stack inserts with approximately 50 head to foot, and then 50 foot to head. Place a sheet of corrugated cardboard every 4-5 inches within stacks of inserts.

or

Pack inserts in standard cartons with 50 head to foot and then 50 foot to head.

- Do not shrink wrap or slip sheet between each book or item.

Insert Use and Disposal Guidelines

Unless otherwise indicated on the insertion order, after issue mailing is completed, any unused inserts marked for that issue will be destroyed. However, if the leftover inserts exceed 10% of publisher's requested quantity, client will be advised prior to disposition. Excess inserts held in storage at client's request, after an insertion order is completed, may be subject to a storage charge. For details, consult Production Services.

Agency Commission

15% of gross billings on space, color, cover, and preferred position charges. In consideration of such discount, Publisher shall have the right to hold the advertiser and/or its advertising agency jointly and severally liable for such monies as are due and payable to the publisher for advertising which the advertiser or its agent ordered and for which advertising was published.

Combined Frequency Savings

All full-run ad space of a parent company and its subsidiaries placed in any of the AMA's *Archives* Journals counts toward the earned frequency in all the journals. ROB full pages, fractionals, and insert pages each count as 1 x toward the earned frequency during one contract year.

Network Savings

Any product running display advertising simultaneously in 2 or more of the AMA's *Archives* Journals is eligible for network rates under specified conditions. Ads must be for the same product, and must run during the same month. Ad units may carry different messages and may differ in size.

Page rates no longer are being published for the *Archives* Specialty Network. Savings will be invoiced as percentages, after all other AMA savings programs have been applied.

Number of <i>Archives</i> Journals	2	3	4+
Applicable Network Savings	10%	15%	20%

Advertising Discount Program

A separate insertion order is required for each journal in a network buy. Each insertion order must state "Archives Specialty Network." To ensure that no component of a network buy is overlooked, all journals in the buy that month should be noted on pertinent insertion orders. Separate mechanicals (electronic media or film) are required for each journal.

Not all *Archives* Journals are issued at the same frequency. Ads in corresponding issues may qualify for network discounts.

Any ad that does not meet all requirements will be billed at standard rates. If an advertiser begins a schedule using several *Archives* Journals, and then cuts back to fewer journals, relevant rates will apply for subsequent ad space. For quotes and additional information, contact Advertising Services.

2010 Advertiser Savings Program (ASP)

The 2010 Advertiser Savings Program is effective with January 1, 2010, insertion orders.

The 2010 Advertiser Savings Program is based on an advertiser's 2009 gross advertising and US reprint expenditures in all of the American Medical Association's (AMA) print media.

- For example: In 2009 an advertiser placed \$4,250,000 in advertising space with the American Medical Association publications and purchased \$500,000 worth of reprints. The advertiser's ASP Corporate Spend Level would be \$4,750,000. The advertiser will receive a 6.5% savings on all 2010 advertising space and reprint purchases, beginning with January 2010 orders.
- When advertiser's 2010 gross advertising expenditure exceeds its 2009 gross advertising and US reprint expenditure, the advertiser will be afforded the next highest earned savings for all additional 2010 dollars that surpassed the 2009 amount.

The Advertiser Savings Program follows all policies pertaining to existing AMA combined earned frequency previously established by the AMA. These combined earned frequency policies are outlined in each AMA publication's rate card. The Advertiser Savings Program applies to recognized advertiser parent companies and their subsidiaries.

Incentive Level	Savings Rate	Minimum Savings
\$ 300,000 to \$ 500,000	1.00%	\$ 3,000
\$ 500,001 to \$ 1,000,000	2.00%	\$ 10,000
\$ 1,000,001 to \$ 1,500,000	3.00%	\$ 30,000
\$ 1,500,001 to \$ 2,000,000	3.50%	\$ 52,500
\$ 2,000,001 to \$ 2,500,000	4.00%	\$ 80,000
\$ 2,500,001 to \$ 3,000,000	4.50%	\$ 112,500
\$ 3,000,001 to \$ 3,500,000	5.00%	\$ 150,000
\$ 3,500,001 to \$ 4,000,000	5.50%	\$ 192,500
\$ 4,000,001 to \$ 4,500,000	6.00%	\$ 240,000
\$ 4,500,001 to \$ 5,000,000	6.50%	\$ 292,500

For detailed information and your current account status, please contact your account manager.

More Frequency Program

Buy 2 ads in *Archives of Facial Plastic Surgery* and get the third ad free. The free ad must be ROB and of equal or lesser value to paid insertions (no cover positions) or advertisers may repeat the same product/same ad unit in the same issue at no additional charge. Applies to all unit sizes, including fractional pages. Free space does not count toward combined frequency savings or Network Savings Discount.

Product Continuity (PC) Program

Basic Program

The Product Continuity Program is a product advertising insertion-based program involving the AMA's *Archives of Facial Plastic Surgery*. The program offers product savings with a minimum of 6 product insertions. The following is the product savings at the 6 insertion level.

Basic Program Savings

Minimum Insertions	Rate
6 insertions per year	10%

Launch Component

New products launched February through December are eligible for the launch component. Average of 1 insertion a month results in a 7% discount. Also applies to products with new indications, dosage form/size, etc. You must commit to 1 insertion per issue from launch through the end of the year. Should you reach the 6-insertion minimum with your product launch, you will receive the 10% product continuity discount.

Program Conditions

The minimum number of insertions must be met within a calendar year. One full page in *Archives of Facial Plastic Surgery* is the minimum insertion size. For simplicity, and maximum savings, the Product Continuity Program percent savings will be taken off the product's gross insertion expenditure. The PC discount should be added to the corporation's Corporate Advertising Savings Program (ASP) earned discount, and the resulting total taken off of the gross insertion cost. If you project that your product will achieve the minimum of 6 insertions for the year, you can begin to realize savings immediately. At your earliest convenience, please notify the AMA's Advertising Services Department at (312) 464-4227 of your product's planned PC Program participation level. If the product does not meet the minimum 6 insertions during the calendar year, then the product will be short-rated accordingly. If the product is pulled off the market due to an FDA ruling, the accrued savings will stand, and the company will not be penalized for loss of product continuity. All of a product's indications work together to attain a product's minimum insertion level.
